Bracket P42 ZnNi

Product code: 100413 Old product code: 5039650

Description

Being made of zinc nickle coated steel clamp, P42 bracket is perfectly suitable to demanding conditions.

The wide range of adjustment 86mm and the option to customise the bracket position offers an unlimited range to fit the mudguard on vehicle.

The assembly is extremely easy with just one nut to tighten per bracket whereas the sawtooth form in the bottom plate prevents the bracket from rotating round the support tube.

P42 is available even for the support tubes sizes with diameter 40, 38 and 34 mm with an adapter piece.

The maximum tightening torque is 20Nm.

Weight: 0.3 kg
